**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 101***

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 1-8 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. 35 U.S.C. 101 allows patents directed to a "process" or a "machine," and claim 1 overlaps the two statutory categories.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicant appears to be claiming both a device and a method in Claim 1, rendering the claim indefinite. See MPEP 2173.05(p).

### ***Claim Objections***

5. Claims 12-15 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

***Claim Rejections - 35 USC § 102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 9-11 are rejected under 35 U.S.C. 102(b) as being anticipated by US 6,471,872 to Kitaevich et al. Kitaevich discloses a dialysis system with a dialyzing filter 24 with a semipermeable filter, a blood circuit (generally at 14, 30) with pump 16m inlet and outlet connections to the filter, a diasylate circuit with pumps 60, 66, connected to the filter, various detectors, a controller or calculator 12, and a display 13 that generates a display of the measured and calculated parameters. Specifically, Kitaevich discloses that the display 13 offers a visual representation of various measured and computed parameters, such as flow rates, ultrafiltration, and alarm conditions. Therefore, Kitaevich discloses a device that detects flow rates, a controller that calculates and compares measured values to reference values, controls the pumps, and generates alarm signals.

***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

a. US 5,762,805 Truitt et al

- i. Technique for extracorporeal treatment of blood with monitoring of filtration parameters
- b. US 5,954,951 Nuccio
- ii. Dialysis system with flowmeters and ultrafiltration measurement
